World Happenings Briefly Told

The Curand stanchion line has resumed its office in Berlin.

Grosshoppers are reported to be hatched out in the Harney district and steps are being taken to combat the pest.

It is unofficially stated that at a British naval conference at Singapore, plans were formulated for combined action by the East Indian, China and Australian squadrons in the event of war.

The post zone at Buenos Aires, which has been closed since late in March by the boycott of the Port Laborers' Union, has been reopened. The union balances returned to work but only two of the huge fleet of ship but ships accepted their services.

The body of eighty-eight-year-old Mary Manning, who fell into a sewer on St. James street, Montreal, on March 10 last, was recovered in the St. Lawrence River near the Montreal Couture Mill at the foot of Harbord Street, Hochelaga.

Adnan Philipchak, shoemaker, charged with stealing \$700,000 of wheat and Mike Grignone, farmer, charged with concealing \$5,000 of assets, were arrested at Vernon, Calif., at the request of the British Consul-General and are held for return to Purdue, Sask.

Hon. Geo. H. Macdonald, provincial minister of agriculture and John Bracken, of Manitoba Agricultural College, will go to Ottawa early in June to discuss the matter of federal aid to the development of agriculture in the province with the Dominion Cabinet.

Youth and Age

THERE is no time in woman's life that she cannot benefit by the use of Dr. Chase's Food in order to keep up a supply of pure, rich blood, to ensure a healthful condition of the nervous system.

Headaches, neuritis, sleeplessness, nervous pain, irritability, tired, worn-out feelings, menopause when the vigor and energy of the nervous system are reduced by the use of this great restorative.

A bottle is 60c, 6 for \$3.50, all dealers, at \$4.00 each, Retail Co., Ltd., Toronto

Scheme To Drain Alberta Lakes

Would Mean Thousands of Acres Reclaimed For Cultivation.

Twenty-three thousand acres may be added to the cultivable area in the Manitoba district, near Indian Lake, by the draining of the Manitowish Lake. This is the largest of the proposed drainage schemes in Central Alberta in conjunction with which economic surveys are to be undertaken this summer and autumn.

Surveys are also being undertaken at Chip Lake which covers about 19,000 acres and at Lakes Lake, covering about three thousand acres in an excellent mixed farming district of Central Alberta.

If the projects are found to be practicable and to warrant reclamation operations being undertaken draining schemes will probably be put in hand next year.

Wasp First Paper Maker.

The first paper maker was the wasp, which always exists in its nest with a thin film of paper.

Separation, But No Alimony

A parental, marital separation, no damage done, everything happy again—that's the situation when you divorce your spouse. Putnam's Separation. Acts the money, no pain, no failure, success every time. Write for a free copy of "Putnam's," the everywhere.

Butter Once Regarded As Medicine.

In the early Christian era butter was regarded merely as a medicine, while among the Romans the use of butter, marked the distinguishing mark between the rich and the poor.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

If a woman hasn't anything else to do she borrows a recipe from her neighbor and attempts to make a cake.

The Oil of Power—It is not claimed for Dr. Thomas' Electric Oil that it will cure every ill, but its uses are so various that it may be looked upon as a general pain killer. It has acquired the greatest reputation and its excellence is known to all who have tested its virtues and learned by experience.

The world, fully 30 years long, lives in the open sea. When angry it roars its narrow body out of the water to a height of four or five feet.

Keep Minard's Liniment in the house.

Sends Ontario Corn to Germany. Sending seed corn from Blenheim to Germany is something new, yet it is being done. The C. W. Warwick long recognition as an authority on seed corn in Ontario, and who for a number of years has been shipping export seed corn to Eastern Ontario, to points in the United States and elsewhere, has received an order for seed corn from a large firm in Danzig, Germany, for experimental purposes. The corn was carefully prepared and forwarded.

TOBACCO HEART

Every Smoker Read This

Tobacco does not seem to affect all. Many men enjoy their smoke like a good old friend, and apparently suffer no ill-effects from the use of the weed.

There are others though, on whose heart and nervous system tobacco produces the most serious results. It causes palpitation, pain in the heart, and irregularity of its beat, makes the hands tremble, sets the nerves on edge, and causes shortness of breath, loss of sleep.

To counteract this demoralizing influence of tobacco and nervous system is no remedy to equal Minard's Heart and Nerve Pills.

They restore the heart beat strong and steady, restore tone and vigor to the system, remove all the evil influences caused by the tobacco.

Mr. D. McKillop, Conth, N.S., writes: "I was using too much tobacco, and got so I could not sleep at night, my hands trembled, I felt something awful, and I suffered terrible from pain in my heart. I tried a friend about it, and he advised me to try your Minard's Heart and Nerve Pills. I took two and they gave great satisfaction."

Put in a box of all dealers or mailed direct on receipt of price by The T. McKillop Co., Limited, Toronto, Ont.

An American silver dollar was recently found in a can of pickled corn opened in Wales.

Nature is too busy to turn out hand some men.

Girl Flyer Breaks Record

Looped the Loop 199 Times in Eighty Minutes.

Miss Laura Bromwell, a slim young woman of 23, who looks as if she could play a good game of croquet, clinched into the rear cockpit of a big Curtiss standard biplane at Curtis Field, Garden City, soared up to 8,000 feet and started home the loop an hour and twenty minutes later, she had shattered her own world's record for a woman pilot by more than one hundred. In the eighty minutes she looped 199 times.

School Morals

Depend Almost Entirely on Character of Town Or City.

As long as the responsible leaders in a city not only tolerate but contribute to a generally compromising moral tone, the schools are certain to manifest the same tendency. The affairs in this regard form a long line equipped with the best standards of the hour, but in the schools, particularly in the high schools, the standard is the sum of the best of the child and the child sees the level thus determined. It all comes back to the character of the town, and this in a large extent is determined by the attitude of public officials, particularly those charged with law enforcement. It is at this point that the school is its soul, and the revelation will be encouraging when the citizen helps solve his conscience—indisputable news.

The Suggest Faces

Said to be of Men Who Have Sipped.

If any man of 60 or 70 who has acquired a competent taste of retiring without having planned a good time, he will find the best place to go to is the Riviera Drive and look at the men who retired just before they thought it was time to quit. They sit on the benches in the sunshine or ride back and forth in their cars. Their faces are the saddest in the world. They may be among the gardeners, book collectors, shoemakers, workers for civil betterment, flycatchers, chess fans or amateur actors. They may be in the best of luck at the factory. But they are nothing but workers on the invisible. —New York Herald.

Should Have Been a Scot

Scotman Thought Shakespeare Too Intelligent to Be English.

It was an enthusiastic Scot, and he was arguing with an Englishman over the merits of their respective countries. Military prowess, brilliant invention, engineering, travel and commerce-building had all been passed in review, and the Scot had won hands down. Eventually the Englishman sought refuge in literature.

"Well, let's talk literature," interrupted the Scot, "there's Rabbin Burns, Walter Scott, Stevenson, James Miller, Barrie—that's just mentioning a few at random—'a Scots'!"

Yes, yes, but what a lot!—protested the Englishman. "There is one greater than all these put together," William Shakespeare. You wouldn't suggest he was a Scotman, would you?"

"Well," thoughtfully responded the Scot, "I would precisely say that. But the man's intelligence was almost without inference."

A Meal Of Corn Worms.

C. A. Smith, of Toronto, made an experiment with the robin as a corn worm destroyer. One young robin, kept in confinement, ate 165 corn worms in a day. Had he been compelled to find his own food he would probably have varied it somewhat, as he would not likely find such a large number of worms. What he could do when he had the opportunity was clearly demonstrated.

Over 400 immigrant children were passengers on board the Canadian Pacific liner Minard, which sailed from Liverpool for Montreal.

Sentences, one with a population of 240, previously unknown, were uncovered during the taking of Japan's first official census last fall.

Taffeta Wrap Topped With Brocade

By Marie Belmont.

Apple blossom pink is the color of the taffeta used in this engaging summer wrap. Tied upon the silk is arranged so that the topmost fold is much narrower than those below. They are lined with pale blue gingham, which is apparent when the wearer winds her wrap about her. The upper part is fashioned from a rich piece of brocade. In this brocade of gold and silver delicately outline the green foliage and the strange looking flowers of pink and blue. One may glimpse a flash of this only occasionally, for a spreading collar of the taffeta partly conceals it.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother's Worm Extremator.

Inventor of T.N.T. Visiting Canada

Was Chief of British Chemical Department During War.

A memorable visit to Ottawa culminated in the reception given Prof. Fritz Weizmann, says the Ottawa Citizen. Prof. Weizmann, inventor of T.N.T. and head of the World Zionist Organization, was received at the home of Mrs. A. J. Freeman, 140 Somerset Street, and greeted by 500 persons, comprising the leaders of the Ottawa Jewish and some of its leading citizens.

"Dr. Weizmann made an excellent impression," says the Citizen. "His friendly will and ease and grace with all. Naturally there were many who wished to address the leader of Jewry, and to all he gave gracious attention. Tall, serious of mien, he entered into the spirit of the occasion with an earnest and a poise that endeared him to all."

"Mrs. Weizmann, too, appeared particularly engaging. She is a doctor of medicine, and rendered valuable assistance to the British cause during the war by taking command of a large hospital during this period. Thus, while her husband was chief of the chemical department to the British army and adviser, Mrs. Weizmann kept her own hands busy in ministering to the soldiers fighting for the empire."

Will Plant Corn and Sunflowers.

Considerable acreage near Lethbridge will be planted to corn by former North Dakota farmers, who raised it very successfully there and feel certain that they will make a success of it here. There will also be a big acreage of sunflowers planted in sunflowers this spring.

Exhausted From Asthma.

Many who have tried every other remedy have found relief in the train of systematic treatment. Many do not realize, however, that there is one remedy which will relieve the most distressing cases of Asthma. Dr. D. Kellogg's Asthma Remedy is a check in this distressing ailment. It has a complete record of relief in its credit. It is sold almost everywhere.

Noble Foundation Not Insolvent.

Denial that the Noble Foundation, the big farming school in the farming company and one of its largest credit. The company was by no means insolvent, it was stated.

Ask for Minard's and take no other.

Quickly Conquers Constipation

Don't let constipation poison your blood and curtail your energy. Try our liver and bowels. Don't work your bowels. CARTER'S LITTLE LIVER PILLS today and your bowels will move. For distress, lack of appetite, headache and dizziness, nothing can equal them. Purely vegetable. Small Pill—Small Dose—Small Price.

Want Canadian Loganberries

Demand For Fruit Just Increasing in States.

United States buyers are now in Vancouver beseeching British Columbia logan berries for supplying their buyers with the berries. Prohibition in the United States has created a great demand for fruit juices, and the juice of the logan berry has taken a foremost place.

Sure Protection For You While You Travel

You may find the water bad, some poorly cooked food may excite trouble, a draught from a rare well may give you an ache or pain—a cold room or damp sheets may cause rheumatic twinges. Remember that the pain that is caused by congestion yields rapidly to Nervoline. When your stomach is sore and upset, just try the magical effect of twenty drops of Nervoline in warm water. If cramps when you in the dead of night find yourself in a hurry. Keep a 3-cent bottle of Nervoline in hand always.

Killing Surplus Buffaloes.

The increase in the number of buffaloes in Buffalo Park, Wainwright, Alta., has reached such proportions that it is proposed to slaughter 1,000 of the animals this year. It is expected that a considerable sum will be realized from the sale of the meat, hides and heads.

A Northern Hospital.

Dr. Ings, of Calgary, will have the distinction of operating the fastest hospital in Canada, when the building now being constructed at Fort McMurray is completed.

FILES

Do not suffer from itching, burning, or any other skin trouble. Use FILES. It is the only remedy for all skin troubles. It is the only remedy for all skin troubles. It is the only remedy for all skin troubles.

Strathmore, Alberta, June 22nd, 1921

Weekly Newspapermen Meet at Vancouver

The 1921 Convention of the Canadian Weekly Newspaper Association, held in the city of Vancouver, June 9th and 10th, was in many respects the most representative gathering yet held in Canada. Several hundred weekly newspaper editors were in attendance, in many cases being accompanied by their wives. Every province in the whole Dominion was represented from Prince Edward Island on the Atlantic to the Islands that fringe British Columbia on the Pacific.

Many of the Eastern members had never been as far west as Winnipeg before, and the immense size and diversity of the West was a revelation to them. From the grand sweep of the Great Lakes and the silent wildernesses of the forest that extend north of them they passed to the fifteen hundred miles of western prairie, with flourishing cities and towns of which before they had but dimly realized the existence of.

Entering the Rockies by way of the Yellowhead Pass, the opportunity of surveying nature in its utmost grandeur was given them in several days of travel, with occasional stops at its beauty spots which have been set aside in perpetuity for the use and pleasure of the people of Canada. Through the mountains they got glimpses of the fruit lands which are bringing British Columbia pre-eminence, and finally they arrived at Canada's greatest western gateway to the Orient, Vancouver.

It is any wonder, then, that the problems dealt with in Convention at Vancouver were handled in a broad aspect. Easterners at first seeing the Western view and the Westerners appreciating the spirit that has built up Eastern Canada in happiness, content, and industry.

After the Convention the delegates went still further west, over the waters of the Pacific, to Vancouver Island, where every prospect pleased, and even man diversifies himself or some of the virtues attributed to him in the famous hymn, and lives a life of ease and harmony with his surroundings.

The Canadian Weekly Newspapers Association is in a sense a comparatively new organization, it having been formed 20 months ago. Previous to that time the Canadian Press Association was the one national organization, comprising dailies, weeklies, and class publications, but it proved too unwieldy, and the three societies formed distinct organizations in 1919.

The C.W.N.A. has a present membership of four hundred and seventy-seven, out of about 750 newspapers eligible for membership. Its object is the improvement of the profession, both in ethical standards and from a business point of view, and both before and after its reorganization it has done much towards these ends.

The newspaper of Canada command immeasurably large audiences than either the ministers of religion or the parliamentarians, and their influence on the people is incalculable.

In the case of the weekly newspapers this is especially so, for the editor is in personal touch with all his readers, and he knows their needs much better than the average member of parliament. The weeklies are read by 85 per cent of the population of Canada.

Thus the gathering together in the far west of editors from all over Canada, and the insight which the Easterners have had during their visit into the possibilities and the problems of the West, will mean a great deal to the future of Canada. A united Canada is what we all desire. The recognition of the differences between the East and the West has hastened the development of Canada as a whole. The eastern editors will now be able to tell their readers of the West with a degree of authority which before they did not possess.

An independent press is what all true Canadians desire. The standards of the press has risen greatly through

out the past fifteen years, and this is largely due to the Press Associations, which have hammered at their members for years the necessity of better business methods, better service, and a fair price for their product. A newspaper that is in debt finds it much harder to be independent than one that is on its feet financially. The latter is also giving a better return to its readers and its advertisers.

That the press of Canada is now independent has been proved dramatically within the last twelve months in the collapse of a scheme floated by a former official of the Canadian Manufacturers' Association to influence the press by means of diverting advertising to newspapers favorable to the protectionist policy. Over a quarter-of-a-million dollars were spent. The results were all, and the scheme was to swing the club and bring the newspapers into line is now discredited.

We make no excuse for dealing at length with this subject in the Standard. We want all subscribers and advertisers in this paper to realize themselves as shareholders in it, for that is what they virtually are. It is for you a month of communication fifty-two times a year with every other person in your community, and with many who, though not believing in it now, still read the old home paper. Therefore you will be interested in the doings of the newspaper parliament, rural and town, of Canada, for the Annual Convention of the C.W.N.A. actually is such.

It is impossible for us to cover the subject of the Convention and the Western trip in one article, and we therefore propose to devote another space in several subsequent issues to these matters. The hospitality extended to the delegates while on their way and while at the Coast was delectable. In this connection we wish to thank the following individuals and organizations who assisted in the success of the Convention: The Women's Press Club, the G.T.R., C.N.R., C.P.R., Vancouver Canadian Club, Victoria and Vancouver Newspapers, Vancouver City's Mayor and citizens, B.C. Reception Committee, Hotel Vancouver, management, and lastly the President, Manager, and Executive of the C.W.N.A., who labored hard and enthusiastically for the success of the Convention.

By Misses M. and Mrs. R. S. Stockton, a children's carnival will be held on July 2nd at the Irrigation Headquarters.

Western Premiers' Conference To Discuss Unoccupied Land Problem

The announcement has been made in the Manitoba Legislature that Premier T. C. Norris will call a conference of the prairie province Premiers to consider what kind of initiative will be taken to deal with the unoccupied land problem in Western Canada. It is also proposed that the conference consider the position of settlers now on the land with a view of finding ways and means to increase their productivity to the country.

It need not be argued that the calling of a conference for such a purpose is timely and in the national interest, for it has been well said that the economic future of the West and of Canada as a whole, depends upon the proper settlement of the unoccupied land along with the railway lines and upon the improvement of conditions affecting the production of basic farm products.

The forthcoming conference is the outcome of various meetings held between the Western provincial Premiers and the officials of the Western Canada Colonization Association.

In the memorial recently presented to the Western Governments by the Managing Director of the Colonization Association, the view was clearly and strongly expressed that uniform legislation, calling for the listing of unoccupied lands at firm prices and for a reasonable period, was the key to the success of any genuine colonization movement.

It is to be advanced the theory that the listing of unoccupied lands will suffice, for those who are in a position to judge as to the possible success of any voluntary movement are seriously impeded by the statement of General McKee that the proposed legislation is both reasonable and necessary, if the money subscribed to the Western Canada Colonization Association is to be expended in the national interest. The listing of unoccupied lands with the provincial governments will enable their Land Boards to issue maps and price lists similar to those used by the railway companies. Such maps and price lists will be generally distributed and will not only serve the purpose of the Western Canada Colonization Association, but as well all the land agencies throughout the provinces. In addition the necessary information will be provided to enable the Dominion Government to direct immigrants to the vacant lands near existing railway lines where homesteads are no longer available.

The unqualified endorsement given throughout the country to the proposal for provincial legislation is evidence that the people of the West are seriously anxious to effectively deal with, and find a solution for, the unoccupied land problem in the prairie provinces.

The proposed "inter-provincial Premiers' conference" will probably be held at an early date, the outcome of which will doubtless affect every community interest in the West. In the meantime every Board of Trade, Municipal Council, Farmers' Organization, and all interested public bodies and citizens, should give serious consideration to this important subject and make representations in regard thereto to their respective Governments. Some legislation undoubtedly is necessary to deal with the serious unoccupied land problem. Needless to say, every urban resident is interested by the success or failure of the venture on the land and should therefore be vitally interested in the forthcoming Premiers' conference when agricultural conditions will be fully reviewed and an honest attempt made to find a remedy for existing ills.

Germany Lost Her Opportunity

Refused Chance to Make Voluntary Offer to Allies.

The British premier says open the very core of the diplomatic when he notes the change of attitude in Germany's spokesmen since the first days of their term. They have come as suppliants to Paris on November 11, 1918. Today Berlin is making excuses, not merely for delay, but for avoidance of her debts. "She is beginning to challenge her responsibility," he says, and when her representatives refuse to face their obligations they are cheered, and encouraged and supported.

Germany had an opportunity to make a voluntary offer, but she refused to take advantage of the offer. When forced to take action, the proposals she made were in essence of the British premier "re-examining." Today she is faced with an ultimatum backed by the rifles of Britain and the bayonets of France. If the terms are harsh Germany has only herself to blame.—The Montreal Star.

delights the taste, and causes none of the harm that often comes from tea and coffee.

"There's a Reason"

Discoverer of Radium Is Remarkable Woman

Madame Curie's Position In Scientific World Is Without Parallel In History.

Mrs. Marie Curie, discoverer of radium, is in New York to receive the gift of one gram of this very valuable element from American women. The rise of this woman to the position of a leading scientist of the world is without parallel in history. The daughter of a poor but distinguished Polish scientist, she worked her way up in the field of her choice until today she bears the award distinction of having, together with her husband, received the Nobel Prize award, being the first and only woman professor at the Sorbonne in Paris, of having refused the ribbon of the Legion of Honor because, as she put it, "I don't like decorations," of receiving the English Albert Medal from the Royal Society of Arts, the second to be granted to a woman, Queen Victoria having received the first. There were many more honours and decorations offered, but the response in almost all instances was similar to the one given to the suggestion of the Legion of Honor award.

In cooking any of the "dried and soaked" fruits arising to cook slowly. This will aid in developing the natural flavor and sweetening of the fruit must add extra sugar, add it toward the end of the cooking. Less sugar is needed to give the desired sweetness if added at the end of the cooking.

A STUDY OF OLD AGE

It is always interesting and reveals the fact that the blood is usually thin and lacking in color. If you want to fill your blood with the youth, build up your strength, restore your nerves, just use Dr. Hamilton's Pills. The powerful mercurial body free of waste and impurities. Young and old the use of Dr. Hamilton's Pills is recommended. At all dealers or The Catarthine Co., Montreal.

Tuesday Is Calamity Day.

Statistics show that calamities are far more common on Tuesday than on any other day of the week. Railroad disasters, fires, street accidents—the record in each case is easily led by Tuesday.

Catarth

Catarth is a local disease greatly influenced by the weather. It is a Tonic and Blood Purifier. It is composed of NATURAL MEDICINE, restores normal conditions. At all Drug Stores. Consult Dr. F. J. Thursday, C. Co., Toronto, Ont.

Telephone Subscribers Increase.

The new issue of the Manitoba Government telephone directory for Winnipeg shows an increase of 600 subscribers, there being 40,000 names in the latest, while in the January issue there were 39,400 listed.

WELL SATISFIED WITH BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little one she will use nothing else. Her use of them leads her to the use of other medicine to equal them for any of the many minor ailments of childhood. Concerning them Mrs. Eugene Boivert, East Adelaide, Cape Cod, writes: "I have used them for my child, but after the use of Baby's Own Tablets I have never again used any so well satisfied with the Tablets that I lose no opportunity in recommending them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Allies Will Care For German Graves

Over 400,000 Estimated to be on French Soil.

A conference will shortly be held between the representatives of the British French and Belgian War Graves Commissions and German representatives, with regard to the treatment of German graves in Allied countries and of Allied graves in Germany. It is estimated that there are well over 400,000 German graves on French soil, and under 30,000 French graves in Germany. It is hoped that a satisfactory solution of this problem may be reached at the conference.

Farms in New York City. There are in the limits of the city of New York 800 farms, valued at more than \$35,000,000. Five are in Manhattan, 55 in the Bronx, 52 in Brooklyn, 562 in Queens and 121 in the Borough of Richmond. The average value of a farm in the nation's greatest city varies according to location, and the average acreage value runs all the way from \$550 in the Bronx to nearly \$3,000 in Brooklyn.—New York Times.

Why Not Use Dried Fruit?

BY LORETTO C. LYNCH
An Acknowledged Expert in All Matters Pertaining to Household Management.

Some folks have the idea that in order to be effective, fruit must be both juicy and acid. They pass by delicious dried fruits plentiful and cheap enough to delight the heart of the most economical.

All dried fruits, as well as all Oriental fruits like figs, dates and the like, are horridly dirty. Under the microscope this dirt is highly visible. Therefore, dried fruit must be thoroughly cleaned with a small brush and warm water. I find a new toothbrush as well as raisins, should be scalded several times with boiling water and then spread out on a platter to dry.

Then put the fruit to soak in clean cold water in a covered vessel. The fruit may be stewed in this same water when plump and much of the mineral matter that soaks out into the water may thus be conserved. Figs and dates, as well as raisins, should be scalded several times with boiling water and then spread out on a platter to dry.

In cooking any of the "dried and soaked" fruits arising to cook slowly. This will aid in developing the natural flavor and sweetening of the fruit must add extra sugar, add it toward the end of the cooking. Less sugar is needed to give the desired sweetness if added at the end of the cooking.

A combination of prunes stewed with raisins and a very little lemon is pleasing change. A delicious compound dessert may be made of prunes combined with lemon gelatin. A pint of fruit, thoroughly prepared and allowed to cool, but not necessarily harden. It is then whipped to a spongy consistency with a dove egg beater and a cupful of sweetened and mashed prunes is folded in, as well as half a cup of cream whipped until stiff.

A dozen nut meats chopped may be added. The mixture is set aside to thoroughly chill, or it may first be packed in moulds. It is served with additional whipped cream. This makes twelve servings.

A novel frozen dessert is made by adding a cupful of apricot pulp, obtained from a strainer, and a cupful of banana pulp to a quart of very sweet lemonade, and then freezing. The lemonade must be over-sweet, as the frozen doughs recognize the sweetness of frozen dishes so readily as others.

There are for sale some stoned cherries. If you want them, you can. Ten cents' worth of these, cleaned and soaked and stewed and sweetened, and their juice thickened with a little cornstarch, will make the filling of a pie such as the caterer sells for one dollar. Try it.

The stiving figs are cheaper than the ones in pretty boxes. First, scrub these and then put them to cook. Stew slowly, adding a little lemon skin if liked. Taste. If not sweet enough, add a little sugar. These are excellent for the first course at breakfast, or for a simple dessert topped with whipped cream.

How Are You. —A New York man declares that the ordinary reply to the question "How are you?" is, either trite, ungrammatical or mendacious. Frequently, too, it is elaborate and tiresome. It would be better, would it not, if people regarded the rippled rule in the matter, which runs: Don't tell your friends about your indisposition. "How are you?" is a greeting, not a question. —Boston Transcript.

The Deadly Fly.

The stretch of a lion's life is almost as deadly as the life of a lion. He never cleans his nails, and he always carries under them rotting meat that he picks up with his claws. Flies do the same thing on a smaller scale; and don't forget that they never wipe their feet.—Montreal Herald.

London's Missing.

Every year no fewer than 30,000 persons are reported missing in London alone. Some of them are never seen nor heard of again; others, after weeks or months of absence, return and take up the thread of their former life as if they had never left it.

After Three Years Of Liquid Diet, Kaiser Is Picture Of Health

"I had lived on a liquid diet for three years and my case had twice been pronounced hopeless, but Tanlae has completely overcome my stomach trouble and I eat meat, vegetables and everything else I want now," said Joseph S. Kaiser, a boiler-maker, who lives at 331 Beverley St., Winnipeg.

"My trouble dates back to a spell of the flu three years ago and from that time up until I took Tanlae I steadily went down hill. For a whole year I was so weak I couldn't put my foot out of the house and while I spent hundreds of dollars trying to get on my feet, nothing helped me a particle. I just moped around the house and I couldn't even lift a shovel of coal. I was suffering nearly every day from dizzy spells, headaches and awful attacks of nervousness. My skin got yellow and I fell off until I was hardly more than a walking skeleton.

"This was the fate I was in when a friend called and persuaded me to give Tanlae a trial. He was certainly a friend in need. I improved right from the first dose. I am as sound as a dollar today, have put on 100 pounds in weight and look, so to speak, like the very picture of health. I feel twenty years younger and the change in me is so great that my friends who know what a desperate condition I was in are now simply amazed. I have never known anything in my whole life to equal it."

Tanlae is sold by leading druggists everywhere.

Barnado Boy's Success Accumulated Fortune Of \$100,000 In Twenty-Five Years.

A former Barnardo boy, a farm laborer at Bowmanville, Ontario, was killed recently in an accident while working in a barn. He came to Canada twenty-five years ago from England as a boy and up to the time of his death worked as a farm laborer. He left an estate of \$15,000; \$1,000 he had in a bank and the balance in his pocket; \$1,000 to the Bowmanville Hospital; \$1,000 to the Ontario House in England, and the balance to a brother in England. He came to Canada penniless, and was forty years of age at the time of his death.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious use of the oil of the Electric Oil Company Dr. Thomas' Electric Oil and there is no alcohol in it, so that its effect is lasting.

Bolsheviks Abandon Food Control

Order: Came Too Late To Relieve Situation.

Lenin's abandonment of government of foodstuffs came too late to relieve the situation in Bolshevik Russia, according to letters received in Berlin from a family which has lived in Petrograd throughout the Bolshevik regime.

"The conditions are worse for us than they were when food was issued on cards," one letter stated. "We are told now that we may buy food, and the presents are told they may sell without violating government regulations. But there are no food shops. And the presents about Petrograd have little food to sell. They don't want paper rations."

Canadians Celebrated Empire Day.

Canadians in New York celebrated Empire Day. The flag of the Dominion was in evidence at the headquarters of various Canadian organizations and a series of social and breakfast lectures marked the day.

"The Dumbbells," the Canadian soldier entertainers, who were appearing at a local theatre, celebrated the day by giving a special performance at the Fox Hills Hospital, Staten Island, for the benefit of the soldiers there.

Use Lizard Skins For Shoes.

Shoes of many uncommon animals, including apes, lizards, walrus, pythons, and numerous kinds of alligators and crocodiles, are now being used for making women's footwear.

Saves Axles and Harness

Wheels turn easier and axles wear longer when the properly lubricated with Imperial Mica Axle Grease. The mica flakes form a glassy surface for grease to work over. Friction is reduced and wear retarded. It costs less than any other grease because it lasts twice as long.

Imperial Eureka Harness Oil keeps your harness pliable, strong and new-looking. It gives leather a rich, black, lasting finish, protects it from moisture, and adds years to its life. It is easily applied and is a big money-saver on repair bills.

Imperial Mica Axle Grease and Imperial Eureka Harness Oil are the best choice for your horses and livestock. A double your carries both in convenient sizes.

CARSELAND NEWS & NOTES

The Ladies Aid met at the home of O. C. Moorhouse on Thursday, 17th, when there was a good attendance.

The reports of the committees were received and adopted. The Finance committee, Messadames Wood and Haskayne were re-appointed.

Messadames G. B. Field and O. C. Moorhouse were appointed visiting committee for the ensuing month. It was decided that the next meeting will be a Missionary nature.

Cook was appointed to arrange as also decided to try and get Mrs. McHugh to give an address in near future.

The first item of news really should be that of the recent rain on, namely, the "night rain on Friday last."

Mrs. Mike Brown, who, in residence in the house recently vacated by Mr. W. Morrison.

The Carle choir, journeyed to Crek on Thursday for a united service for the big U.F.A. service on 19th.

There was a good attendance and a first-class practice. Mr. R. J. Mutch had the misfortune to run in the ditch on Friday.

Monday, the 15th, the Strathmore junior team met their late when they landed them home to the tune of "A. Although there was some."

One of the game there was a good dance to witness the victory. The players did well, and with some practice will be able to take the with considerable confidence.

On Saturday afternoon, the not to be outdoors, the High of team trouped the Strathmore School. The score was 162.

me time, and after that we lost it. In spite of the score the game got too one-sided, and the Strathmore boys, who were without some.

our regulars, put up a good game. Lawson's pitching, however, always a little too fast for the from the north. Willie Phillips the honor of knocking the early.

run of the day, and it was a good. The boys are to be congratulated on the new back stop. It takes young fry to do things. Wonder long it would have been before.

seniors would have got around to. We noticed two of the boys' faith among the rosters. Where were they? Don't do a bit of harm now up when they are in action.

Well, I guess if Strathmore had an intermediate team, it would be all the same.

Mr. L. Donneworth, of Strathmore, was in Carleland on Saturday last, looking over the ground as to the possibilities of running a regular season here.

The school games began on the 17th week. All success to those groups throughout the ordeal.

The Imperial Oil people are putting a new coat of paint on their tank here. Quite a number took in the dance at Dalenwood on Friday last and all agree that it was one of the best of the season.

All roads led to the bridge on Sunday afternoon which shows that they are nothing like a fine day and a novel try for general appeal.

The lecture and picture show under the auspices of the U.G.G. and U.F.A. in the church on Tuesday evening was well attended, but owing to the late hour in starting, was somewhat marred.

Mr. and Mrs. Schofield spoke in the interests of their respective branches of the work and Mr. Mayle on the U.G.G. work. The pictures did not measure up to expectations, being altogether of too common a nature.

There was not much to show the general picture, that would have been of more interest.

However, Carleland was the base ball game, so we are not sure.

All Sunday School workers in the whole community will be interested in the Sunday School Institute to be held in Strathmore on Saturday evening and all day Sunday, this weekend.

The Institute takes in all schools from Carleland to Bassano, and a large attendance is assured. It would be worth while for all interested to take in any or all of the sessions.

The first session is at 3 p.m. Saturday evening, and is continued on Sunday at 2 p.m., 2:30 p.m., and at 7:30 p.m. The Ladies Aid of the Union Church will give dinner to all delegates in the Church from 6 to 8 p.m.

The Union U.F.A. service held at the bridge on Sunday afternoon last was well attended and was a success in every way. There were in the neighborhood of seventy-five cars and an attendance of well over four hundred people.

The weather, while it was threatening at the beginning of the service, cleared later, and by the end of the service was quite bright.

Mr. Frank Nash, President of the Carleland Local presided and the program included a speech by Mr. W. Storm, of Dalenwood, Scripture lesson by G. C. McNeely, sermon by Rev. F. T. Cook, solo by Mrs. M. M. King, of Dalenwood, two anthems by the joint choir of Carleland, Blind Creek and Dalenwood, and a chorus by the children. The collection amounted to a little over forty dollars and divided up between the three places. Quite a number rounded out the day by lunching on the grounds. Thanks were accorded Mr. and Mrs. Haxton for the use of their piano for the occasion.

Successful Sports Last Wednesday

The winter clerk was on his best behavior when large numbers congregated in the public park on Wednesday afternoon, June 15th. The children's sports were run off first and enjoyed by young and old.

It was a great day for the children although many who were not children seemed to enjoy Coca-Cola, Bowling Alley Aunt Sally, etc.

A booth built by the kindness of Messrs Wright and Hyde, dispensed refreshments during the afternoon. At five o'clock supper was served in a large tent kindly loaned by the C.P.R.

The tables looked a perfect picture with their flowers, and they seemed to grow under the weight of the many good things laid upon them. Thus the folks enjoyed their supper was shown by the fact that only the bones and very few scraps were left.

In the evening a large number took in the picture show and dance. One does not need to speak to a Strathmore crowd of the theme dispensed by the Gleichen Orchestra; to your reporter everybody seemed to have a good time.

Oh! Mr. Editor, I nearly forgot the band who so kindly added to the proceedings by dispensing music in the park during the afternoon. Mr. Editor, if anybody sees any mistakes in the prize list or reports of the affair, please blame your humble servant the reporter and not the printers or editors.

will operate an electric fan, churn, cream separator, or washing machine. It will supply all the lights you require about the farm.

Delco-Light is the most simple electric lighting plant made. Any child can operate it. Pays for itself in a short time. Ask your dealer to work.

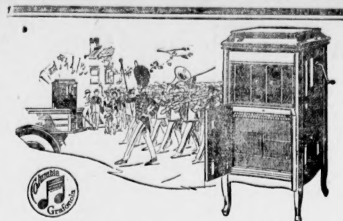

ROLAND HILL

Housing Poultry

Not all who keep chickens, either in town or country, know how to secure the best results from their flocks. For lack of knowledge the chicks often develop into spindly-legged, multi-toed, poultrymen, creatures. And yet any amount of instructive literature is published and can be had without cost by applying to the Publication Branch of the Department of Agriculture at Ottawa.

Housing shares in importance with feeding; the best results are to be gained. In this connection it is interesting to observe that a revised edition of the bulletin on Poultry House Construction by F. C. Elford, Dominion Poultry Husbandman, has just been issued by

It is the Band!

Keoma News Items

The recent heavy rains have very much helped the crops.

A lot of work is being done on the road east of Keoma. On Saturday, the 11th inst., the Keoma Dip Co. held their annual meeting. An election of officers was held after the business of the past year was cleared up. J. Hinton was made president, George Koch, vice-president, and W. M. Galloway, secretary-treasurer. It was decided to dip on July 18th, and instead of the old method of charging, this year the rate per head will be charged for all cattle older than spring calves only.

The U.F.A. held a meeting on Saturday, June 11th. Last Wednesday a large crowd from hte Keoma and Kuthryn districts went to the picnic and sports held by eleven locals of the U.F.A. at Lake Chestermere. A most enjoyable time was spent by all.

The Keoma locals of the U.F.W.A. held a meeting last Thursday at the home of Miss Bellamy. The day was showery.

We hear that Mr. and Mrs. George Wilson are spending a most enjoyable holiday in old Ontario, amongst their old friends and relations.

Irricana News

A quiet and pretty wedding took place at the home of Mrs. Buchert on Tuesday, June 14th, when her sister, Christine Buchert, of Trychka, was united in marriage, by Rev. Elfer, to Mr. Lewis Gutman, of Irricana.

The bride was handsomely attired in a gown of white satin and georgette. The bridal veil was decorated with orange blossoms and the bride carried a bouquet of cream and pale pink roses. Miss Bertha Black, who attended the bride was very prettily dressed in a gown of white silk poplin, trimmed with pink. Miss Black also carried a bouquet of roses.

After the wedding dinner was served, Mr. and Mrs. Gutman, after a short honeymoon at Banff, returned to Irricana where they will reside.

Mr. P. P. Smith, of Springbank, has been in the district for the past week buying dairy cattle.

Mr. M. W. Long, with his family, motored from Canoe, N.D., and is now visiting his father here.

A good rain shower has made prospects look brighter to the farmer.

Friday evening the Ladies Aid served tea in the hotel in aid of the church.

There was a large attendance at the dance here Friday evening. The high school pupils have started their examinations here.

Mr. Fitch is acting as presiding examiner.

The first sod was turned on the new district highways on Friday by Mr. Kwinn's outfit.

Mr. Long, and family, and Mr. and Mrs. McCune, were visiting on Thursday.

The Irricana baseball team was defeated by Acme on the local diamond on Friday.

Picnic and Dance at Chestermere Lake

On Wednesday, June 15th, the Central local of the U.F.A., and ten other locals staged a monster picnic, sports, and dance in the evening.

The day was perfect, and over a thousand people were present. Up till 2:30 p.m. an entrance fee was charged when 410 adults were accounted for, and after that time people continued to roll up nearly as fast as before.

This was the largest event ever held in this part of the country, and the committees in charge of the different entertainments spared no effort to give the visitors a good time. An entrance fee of 25 cents was charged, and this entitled the crowd to see all the sports, free tea and coffee, and a motor launch took parties up and down the lake all day without any extra charge.

The local U.F.A. ran an ice cream stall also another for lunches. All the helpers were kept busy all day and it was plain to see that they were putting every effort forward to make things a success.

Races of all kinds were held for young and old.

Other events were: tug-of-war tournament, shetland pony race (boys & girls), horse race, potato race, cow-boy horse race, show horse race, barrel race.

A baseball game was played between Keoma and Aldrie. The score was 19-0 in favour of the former.

When the game was half finished one of the teams started something which wasn't in the book of rules.

Previous to the baseball game a speech was given General McDonald, setting forth the work of the Red Cross society.

This was followed by a short address by Mr. Schofield, a director of the U.F.A., boosting the U.F.A. and the U.F.W.A. and junior branches.

A big dance was held in the evening on an open air stage, specially erected for the purpose, near the lake. There was a four-piece orchestra. All admitted that they had spent a most enjoyable day and evening.

Ardenode Notes

Last Wednesday this district was divided into three parts, one part going to the U.F.A. picnic, one part to the Strathmore Sports, and the remaining few staying at home.

Mr. Jim Godhart went Calgary last Friday, where he was initiated into the Elk's Lodge. We only hope the "goat" didn't disgrace him.

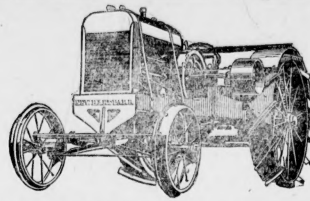

Mr. A. Hicks leaves this Tuesday for Springfield, Ohio, where he will be present at his father and mother's golden wedding anniversary celebration.

Rain! Glorious Rain! Neighbors, we have much to be thankful for. The U.F.W.A. meeting held at the home of Mrs. James last Tuesday, although not very well attended, was very interesting and a good time had by all. A short business meeting followed by sewing was the order of the day and ended up with the best of all, a delicious lunch.

The next meeting of the U.F.W.A. will meet with Mrs. Dawson on Wednesday afternoon, June 25th. All members are urged to attend as this is well located and no reason for staying at home.

The meeting held at the school house last Friday, was, without a doubt, a great treat. An address by Mr. Schofield, followed by a short address by Mrs. Schofield, solo by Mrs. Dawson, and ended by an address by Mr. McInnes, and moving pictures, which was very instructive as well as entertaining. Quite a few members were missing. If they had known what we know, they would have been here, as "Max on the Ice" was worth coming out to see.

Vancouver, B.C.—United States buyers are now in Vancouver busking British Columbia logan berries for supply their logan berry wine, flavoring and cider factories. Prohibition in the United States has created a great demand for fruit juices, and the juice of the logan berry has taken a popular place.

Type of Hart-Parr 30 Motor Same As Twenty Years Ago

The motor is the heart of the tractor. It is the source of power, and you buy a tractor for power only.

The motor that was used in Old Hart-Parr No. 1, built in 1901, was fundamentally the same type of motor that is used in the Hart-Parr 30 to-day. It is built in the Hart-Parr factory and had they found a type that was better for tractor power they would build it.

For a long time Hart-Parr Company have had out a questionnaire asking for arguments for the two-cylinder and four-cylinder type of motor in a tractor. To date it stands as follows:

ADVANTAGES OF HART-PARR 30 TWO-CYLINDER TWIN MOTOR

1. Less engine experience needed to operate.
2. Handles kerosene better.
3. More accessible.
4. Lower cost per horse power.
5. Half the ignition trouble.
6. Half the valve trouble.
7. Only two main bearings. Cannot get out of line and break crank shaft.
8. Few bearings, and these may be oiled by mechanical oiler.
9. Less gearing because of lower engine speed and less reduction.
10. Best type of bearing may be used because of less reduction to wheels.
11. Less power lost in transmission.
12. Less jacket warps on cylinder, hence more uniform cooling.
13. Easier to cool with radiator.
14. Sturdier, more rugged parts.
15. Blower speed, hence longer life.
16. Less wearing parts.
17. Heavy duty engines have always been one or two cylinders.
18. With cranks at 180 degrees, they may be very well balanced.
19. Similar to stationary engine.
20. Better belt power.

Make a list of 4-cylinder advantages in comparison

Many of the old Hart-Parr tractors that have been built in the Hart-Parr factory are still in use today. They are still as good as new.

Can you doubt the evidence that is shown in this comparison and by the superior performance of the Hart-Parr 30 on the farms of thousands of owners? Let us show you the tractor or send you literature. Buy now—You may not be able to get one on short notice.

CUTS OPERATING COSTS—

THE economy of using Imperial Polarine Motor Oils extends over practically every item of motor operation.

The lubrication afforded at every friction point and the gas-tight piston-to-cylinder seal means a big saving in fuel bills and a noticeable increase of power.

Through perfect protection of all motor parts, undue repair bills are avoided and depreciation is greatly reduced. By using Imperial Polarine Motor Oils you can save dollars this year on maintenance alone. Besides, you realize more profit and greater usefulness from your car.

Always use the grade of Imperial Polarine recommended on our Charts for your type of motor. See Charts at your dealer's or write to 560 Church Street, Toronto, for a copy of our interesting booklet, "Automotive Lubrication," which contains the complete Chart of Recommendations.

IMPERIAL OIL LIMITED
BRANCHES IN ALL CITIES

For a Clean, Efficient Motor

Dealers displaying this sign will thoroughly clean the oil and the dirt out of your crankcase; will flush your motor crankcase with Imperial Flushing Oil and refill it with fresh lubricating oil. Your crankcase should be cleaned every 1,000 miles or less. It means more economy and more satisfaction to employ Imperial Polarine Crank-Case Cleaning Service.

Baseball

Cheadle and Strathmore Juniors met on the Strathmore diamond on Friday evening. The game was a close and interesting one, ending in a 2-1 score for the locals.

The previous week Cheadle came out at the big end of the score, the score being 4-1 in their favor, so this time things are now evened up.

At last Friday's game the scoring was done in the first two innings. Teams were:

Cheadle

Cunningham, c; Van Norman, p; H. Miller, 1b; R. Pain, 2b; C. Miller, L.F.; B. Edwards, 3b; C. Pain, S.S.; D. Miller, 1b; L. Edwards, 1b.

Strathmore

Way, c; Scobblum, p; Venus, 2b; Duker, 2b; Brown, c.f.; Jenkins, S.S.; Dick, L.F.; Smith, 1b; Anderson, r.f.

GIRLS PLAY DRUMHELLER

The Strathmore ladies baseball team journeyed to Drumheller, where a big sports day was held last Friday and played the ladies from Drumheller.

The game was very interesting and well played, though Strathmore was defeated by a score of 28-12.

It must be remembered that Drumheller has had more than one season on the diamond, while Strathmore suffers for want of practice. This time next year will show a great difference, and we will expect more.

Mrs. Mat May is to be congratulated on her pitching, having tossed for the whole game while Drumheller changed three times. The entire team played a good game, though they did stand a chance against their more experienced opponents.

The lineup for the local team is as follows:

Boyes, c; Mrs. May, p; G. McIntyre, 1b and S.S.; Carle, 2b; M. Miller, S.S. and 1b; Harwood, 3b; Mrs. McLaughlin, c.f.; A. Crawford, r.f.; Corneil, 1b; Baker, L.F. and S.S.; Pattie, 1b, and 2b.
